

# Beverage Dispensing EQUIPMENT

**Pacificool**

Italian design for better drinking

## ABOUT US

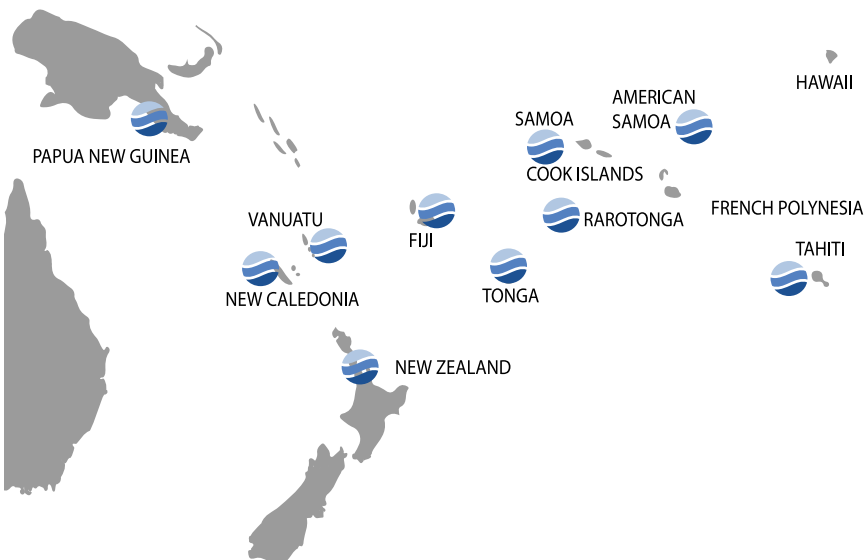

### Specialised Service for NZ and the Pacific

Within the **Beer and Soft-Drink** industry, Pacificool is highly respected as a responsive and dynamic supplier of **Dispensing Solutions** with the experience to satisfy even the most demanding markets and conditions.

Our customers value our industry experience and rapid response to technical questions. We understand that every hour counts and treat after sales support with urgency and care. Additionally we can provide technical training to your staff.

Pacificool supplies equipment throughout NZ and the Pacific from either stock held in Auckland or direct shipments from our partner Celli in Italy.

Our large range and quantity of critical spare parts held in Auckland enable us to respond rapidly to any urgent requirement. We are currently actively supporting over 600 Beer or Post-Mix systems in ten regions in the South Pacific with **machines, spare parts, frequent technical visits and training.**

When you purchase from Pacificool, you acquire over 30 years of technical expertise on beer and post-mix installations in tropical conditions.

We will always recommend and supply the equipment best suited to your conditions at the best price.

# BEER EQUIPMENT

## BEER TOWERS

Our towers can be supplied in many different versions:

- Flooded (Ice)
- LED Light
- Vitreous, Stainless Steel or Nickel/Gold/Copperplated Effect
- Standard or compensating Tap
- Number of Taps

## BEER COOLERS

Thanks to Celli's continuous innovation, our coolers offer maximum performance with low energy consumption.

Available in R134a / R744 CO<sub>2</sub> / R290 Propane Refrigerants.

At Celli respecting the environment has always been a priority. The use of carbon dioxide (CO<sub>2</sub>) and R290 (Propane) as cooling gases aroused new interest in the past few years due to the high ecological impact of artificial gases.

Please ask how we can help your organisation implement these new sustainable, efficient, and low-consumption dispensing systems.

Portable Beer Dispenser

# POST-MIX

Innovation, technology, quality, design: these are the keystones that characterize Celli's hard work in the world of soft drink dispensing.

Install kits available for easy install:

- Syrup pump board
- CO<sub>2</sub> board
- Tubing & Fittings kit
- Water Filtration board

The overcounter and undercounter dispensing systems adapt to different contexts, cutting management costs and ensuring that consumers enjoy the best drinking quality.

The main companies in the soft drinks sector, such as Pepsi and Coca-Cola, have chosen Celli as their strategic partner to co-engineer their innovative projects. Strong visual impact of its products, equipment and towers, combine dispensing quality and maximum brand visibility.

Energy saving, efficiency and reliability achieve new high standards.

## WATER & SODA DISPENSERS

Water and Soda dispensers for professional and home/office use. Our Celli range of water dispensers offer refreshing still and sparkling water directly from the mains water supply using splendidly designed coolers of the highest quality.
