

EvicaCare

EvicaCare 200

Chlorinated detergent powder suitable for food contact surfaces

Cleaning and Sanitation in one step

EvicaCare 200 is a chlorinated powdered detergent disinfectant, suitable for use in food contact areas and surfaces.

Key properties

EvicaCare 200 is a low foaming, readily soluble chlorinated powder suitable for use as detergent sanitizer in the food industry. Examples of its use are varied, but typically it is used as a detergent sanitizer for food contact surfaces and CIP of brew & beverage processing and dispensing equipments.

Features

- Safe to use
- Dissolves quickly, kills bacteria, yeasts and mould
- Concentrated cleaning power for excellent results and economy
- Effective in all water conditions
- Does not damage stainless steel
- Deodorises - leaves equipment with a fresh, clean smell
- Portion dose for controlled use
- Intelligent Cleaning: Hygiene indicated by color change (PINK-CLEAN)
